

POLICY DOCUMENT

Fire & Emergency Evacuation Plan

Procedures for the safe evacuation of children, staff and visitors, and for maintaining ongoing emergency preparedness.

The safety of our children, staff and visitors is our highest priority. This policy sets out our Fire and Emergency Evacuation Plan, covering preparedness, evacuation procedures, drills and continuous improvement.

01

Preparedness

Emergency Exits

Clearly marked, accessible exits are located throughout the facility and kept unobstructed at all times.

Fire Safety Equipment

Fire extinguishers, smoke detectors and alarms are installed throughout the building and inspected regularly.

Evacuation Routes

Routes are posted in every classroom, hallway and common area, indicating the nearest exit and assembly point. All staff are trained on these routes.

Emergency Supplies

First-aid kits are kept in each classroom and at the assembly point, checked and restocked regularly.

02

Evacuation Procedure

01 Immediate response

The fire alarm is activated immediately; staff calmly gather children and proceed to the nearest exit, ensuring no one is left behind.

02 Staff roles

Each staff member has an assigned role — leading children out, sweeping the area, or carrying the attendance roster and emergency contacts.

03 Assembly point

All children and staff gather at a predetermined assembly point; a headcount confirms everyone is accounted for.

04 Communication

The School Director contacts emergency services and notifies parents, including of any change of location.

05 Reentry

No one reenters the building until it is declared safe by emergency personnel.

REUNIFICATION

"Children are only released to authorised individuals."

Following an evacuation, children are released only to parents, guardians, or individuals listed on the emergency contact form, with identification verified before release.

03

Drills & Training

ACTIVITY	FREQUENCY
Fire & emergency evacuation drills	Monthly
Staff plan training	Annually
Plan review	Annually & after each drill/emergency

During drills, staff explain fire safety in age-appropriate, non-threatening terms so children remain calm and follow instructions. A log of every drill — date, time, duration — is maintained and reviewed for improvement.

3.1 Special Considerations

Individualized evacuation plans are created for children with special needs, with staff trained and assigned to support them. The plan also covers non-fire emergencies such as severe weather, gas leaks, or lockdown situations, with staff following the appropriate evacuation or shelter-in-place response.
