

POLICY DOCUMENT

Transport & Field Trip Policy

Safety standards for transportation, supervision and communication during off-site activities.

Field trips and off-site activities offer valuable opportunities to explore beyond the classroom. This policy ensures the safety and well-being of every child during these outings.

01

Transportation

Vehicle Safety

All vehicles meet applicable safety standards and are equipped with age-appropriate car seats, booster seats, or seat belts.

Qualified Drivers

Only licensed, insured drivers who have passed background checks and training may transport children, familiar with the planned route and carrying a phone for emergencies.

Parent Permission

Written consent is required for every field trip, provided well in advance.

Emergency Preparedness

Each vehicle carries a first-aid kit, emergency contacts for each child, and any needed medication with instructions; staff are trained in CPR and first aid.

02

Field Trip Guidelines

01 Planning & communication

Parents are informed in advance of destination, date, time and instructions, and welcome to join as chaperones with a full itinerary.

02 Supervision

Staff-to-child ratios are maintained or exceeded; children are assigned to small groups, each with a specific supervising staff member.

03 Health & safety

Children wear identification tags with the school's contact information (not the child's name); staff carry relevant health information and any needed medication.

04 Behaviour expectations

Children are briefed beforehand on staying with their group, listening to adults, and following safety rules.

WEATHER & CANCELLATION

"Trips may be rescheduled or cancelled for safety."

In case of inclement weather or unforeseen circumstances, a trip may be rescheduled or cancelled, with parents notified as soon as possible. The school may also cancel or modify plans due to safety concerns or insufficient participation.

03

Return & Feedback

Every effort is made to return by the scheduled time; parents are contacted immediately in the event of a significant delay. Staff provide a brief report on the day's activities afterward, and parents are encouraged to share feedback or concerns. A parent who prefers their child not participate may arrange for the child to remain at school instead.
